NEW FEATURES AVAILABLE IN Vi4

==== BUILD 4314== Vi4/PB12 ====

ENHANCEMENT: Patient Details > Ignore home, work, mobile phone number spacing in Patient Search

This enhancement allows the system to find the patient in the Patient Search by their phone number even if the phone number has a space in the patient's file or during the find patient search.

ENHANCEMENT: Default number of days forward, for send appointment reminders now reset to TOMORROW

On a previous enhancement to this feature the date rage 'next 7 days' and 'next 14 days' were added to the pre-defined option for sending SMS Appointment reminders with the 'next 7 days' being the default option. In this build 'Tomorrow' becomes the default option.

ENHANCEMENT: Links within D4W (non-Cloud) - SIR, Learning Centre, Centaur website

To improve D4W customer interaction with our clients, the following areas will be accessible straight from the system.

1. Feedback Form (SIR)

This form is used to collect suggestions and feedback from clients on improvements within the software.

2. Learning Centre

The Learning Centre is an area where all clients on Support and Upgrade have access to a range of learning materials. You can access the Learning Centre from Centaur website or now straight from D4W.
